## **Superior Court of Orange County to Launch Redesigned Website**

**Santa Ana, CA** – The Superior Court of Orange County announces the upcoming release of our newly redesigned public website. Our new website provides customers with an updated look, improved access to online services, and enhanced navigation features. In today's digital age, the website is an important medium through which the public and the Court's justice partners can access information and complete business transactions, 24 hours a day, 7 days a week.

The redesigned website offers:

- Enhanced navigation
- A modern, linear and user-friendly format
- An improved site search tool
- Improved access to online services
- An integrated, more uniform self-help site to assist the public
- A standardized website template which is available to each trial court in California, and is currently in use by 15 other California trial courts

Some features on the website have not changed, such as:

- The Court's web address remains the same, [www.occourts.org](http://www.occourts.org)
- Content and information on each existing webpage have not been altered, but have been converted to an easier-to-use format
- Hyperlinks to applications, websites, and webpages remain the same

Look for our new website on December 22, 2013. In the meantime, please click [here](#) to preview the new site's look and feel.
