Superior Court Announces Expansion of Online Transcript Request Program

Santa Ana, CA – Effective May 27, 2014, transcripts in family law proceedings where there was a court reporter can be ordered online. The online request is available from the Court's public website, www.occourts.org, accessed from the pull-down menu under: **QUICK LINKS, How Do I ... Request a Transcript?**

This service is an expansion of the online transcript request program implemented in April for civil, probate, and mental health proceedings.

As a result of a reduction in staff, and in an effort to expedite the transcript request process, the Court has created this automated Online Transcript Request Program. Your request will now be sent directly to the court reporter that was present at the proceeding. The reporter will provide you with a cost estimate and make arrangements for payment. The new process is easy to use and requires only that you provide the case number.
