

Zoom Remote Mobile Application Check-in Enhancements

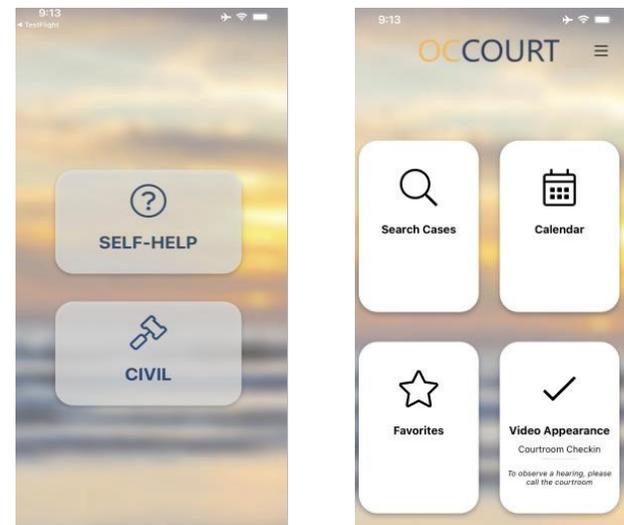

February 17, 2023

OVERVIEW

In June 2021, Orange County Superior Court implemented an on-line/Zoom check-in pilot program. Due to the success of the pilot the Remote Check-in process is available in all Unlimited and some Limited/Small Claims departments. We are excited to announce that as of February 17, 2023, our mobile application will go-live to make the check-in process even easier!

ENHANCEMENTS FOR THE COURT USER

On February 17, 2023, the court will release an update to the on-line check-in process, which will now allow court users to check-in using their mobile application. To download the app, users can download OC Court Mobile application from their device's applications store.

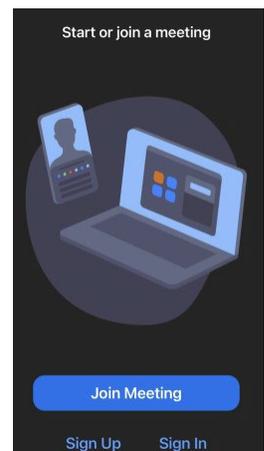

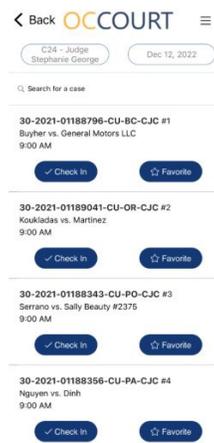

When opening the app, the user will select the Civil option. From there, they will see:

- Search Cases – used to look up cases in selected departments.

- Calendar – to search for a case on a particular calendar.
- Favorites – a list of case designated to favorites.
- Video Appearance – select button to check-in on a case on calendar.

After selecting Video Appearance, provide the *Court Location*, select the *Court Department/Judicial Officer*, and the current date will automatically populate. Then click search.

Once the calendar is brought up, select check-in under the case of appearance. Here you may also add a case as a Favorite. Then, check in as a party, attorney, or other and click on *Check-in*.

When the Court is ready, the host will let you in the hearing.
